CYNTELL IS INTELLIGENT CYBER PROTECTION

OUR PROFESSIONAL SERVICES CONNECT THE CRITICAL ELEMENTS OF CYBER GOVERNANCE, RISK MANAGEMENT, AND COMPLIANCE (GRC).

OUR CORE FOCUS AREAS

CYBERSECURITY - We provide capabilities to ensure an organization's cybersecurity, BCM, and privacy policies and strategies are implemented and incorporated into the organization's IT infrastructure and operational procedures. Our professionals are steeped in the RMF and other frameworks (e.g. ISO 27001 & CSF) for developing and maintaining secure systems and operations.

IT SERVICE MANAGEMENT (ITSM) - With cybersecurity as our focus, we provide technical practitioners to support IT initiatives with expertise in a variety of areas including ITIL® and COBIT®. We provide all tier support including helpdesk, systems administration, engineering , and architecture for enterprise and cloud networks.

BUSINESS CONTINUITY MANAGEMENT (BCM) - Our BCM expertise and experience help organizations develop or refine a BC program and promote a culture of compliance. Our team are experts in integrating and exercising disaster recovery, continuity of operations, and incident and emergency response plans to maximize resources and minimize disruption.

PRIVACY - Our team can evaluate the adequacy of an organization's policy and controls to protect Personally Identifiable Information (PII), person- al financial data, and personal health details in accordance with laws and standards. Our professionals are versed in NIST 800-112 and ISO 27018.

OUR PROFESSIONALS

Our staff meets industry and government mandated training and certification requirements in IT technologies and cybersecurity standards. Our staff either holds, or is eligible to obtain, security clearance through top secret. Each of our professionals is a standards (i.e., NIST, ISO) expert in his/her area of focus. Many have contributed to the development or refinement of such standards including our CEO who directly supported (ISC)2® certifications, served in workshops for NICE, and contributed to the CERT Insider Threat Methodology .

Cyber Is In The Name

CyNtell's management team has over 40 years of cumulative experience delivering IT and cybersecurity services to the government. Our experience and past performance is primarily from providing professional services via contracts and subcontracts to DoD and military customers. Our team of professionals has proven hands-on experience and capabilities facilitating the RMF process and FISMA related compliance functions, as well as supporting the implementation and operation of IT service management. Other significant experience is from providing tactical and operational compliance services (e.g. mock audits, remediation, etc.) to various private sector small to medium sized businesses (SMB) needing to meet regulatory requirements such as HIPAA, FFEIC, SEC/FINRA, PCI-DSS, etc.

Since being established in 2016, CyNtell has achieved success by becoming a trusted provider of quality services to its customers. Our quick success is demonstrated by being awarded a multi year prime contract with the U.S. Air Force and contracting with more than a dozen SMB financial firms to provide cybersecurity policy development and process implementation.

"CyNtell is a critical resource and continues to be a pleasure to work with." - Air Force COR
"CyNtell's deliverables were on time, organized, and met expectations." - CCO, Rainey & Randall Investments

COMPANY PROFILE

Purpose Statement: CyNtell was created to provide critical professional services to both the public and private sectors for the advancement and promotion of good practices in the realms of cybersecurity, compliance and risk management, and IT service management. Furthermore, CyNtell's management believes that the training and education of appropriate knowledge, skills, and abilities in those areas to personnel, government staff, and the public will bolster national protection initiatives. Therefore, CyNtell is committed to providing an outlet for understanding concepts, laws, regulations, standards, and best practices in every CyNtell focus area and realm.

Pledge: CyNtell will—embrace technology; drive innovative solutions; deliver quality services to customers; celebrate diversity; demonstrate patriotism; and glorify God through honoring all people.

Goal: CyNtell strives to provide professional and exceptional services to customers that meet expectations and exceed quality requirements with fiscal and budgetary accountability.
